STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Alabama Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		
Not Enacted	Alaska Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	West		
Not Enacted	Arizona Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southwest		
Not Enacted	Arkansas Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	California Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	West		
Enacted	Colorado The Building Performance Colorado program requires buildings greater than 50,000 square feet to reduce emissions 7% by 2026 and 20% by 2030 from a 2021 baseline. HB 25-1269 requires the Air Quality Control Commission in the Department of Public Health and Environment (CDPHE) to adopt rules to extend the BPS through 2040. Establishing Policies • SB 21-1286 (2021) • 5 CCR 1001-32 (2023) • HB25-1269 (2025) • SB 25-039 (2025)	West		2023
Not Enacted	Connecticut Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
In-Progress	**Delaware** Delaware will receive $10M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. Establishing Policies • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 2 (2024)	Southeast		
Not Enacted	**Florida** Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		
Not Enacted	**Georgia** Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
In-Progress	Hawai'i Hawai'i will receive $18.1M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. Establishing Policies • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 1 (2024)	West		
Not Enacted	Idaho Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	West		
Not Enacted	Illinois Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Indiana Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Iowa Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Kansas Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Kentucky Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		
Not Enacted	Louisiana Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Maine Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		
Enacted	Maryland The Building Energy Performance Standard requires buildings larger than 35,000 square feet to reduce direct emissions from buildings by 20% by 2030, and to achieve net-zero emissions by 2040. Establishing Policies • SB 528 - Climate Solutions Now Act of 2022 (2022) • COMAR 26.28.01 - .04 (2024) • Building Energy Performance Standards	Southeast		2024
In-Progress	Massachusetts Massachusetts will receive $3M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. Establishing Policies • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 2 (2024)	Northeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
In-Progress	Michigan Michigan will receive $20M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. Establishing Policies • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 2 (2024)	Midwest		
In-Progress	Minnesota Minnesota will receive $8.5M in funding through the Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes to adopt, implement, and enforce a building performance standard to reduce emissions from existing buildings by 50% by 2035. Establishing Policies • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 1 (2024)	Midwest		
Not Enacted	Mississippi Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Missouri Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Montana Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	West		
Not Enacted	Nebraska Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Nevada Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	West		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	New Hampshire Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		
Not Enacted	New Jersey Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		
Not Enacted	New Mexico Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southwest		
Not Enacted	New York Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	North Carolina Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		
Not Enacted	North Dakota Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Ohio Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Oklahoma Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	Oregon The Oregon Building Energy Performance Standards adopt the 2024 version of ASHRAE Standard 100 with Oregon-specific amendments, and cover large commercial buildings greater than 35,000 square feet. Establishing Policies • HB 3409 (2023) • Building Energy Performance Standards	West		2024
Not Enacted	Pennsylvania Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		
Not Enacted	Rhode Island Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		
Not Enacted	South Carolina Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	South Dakota Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Tennessee Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		
Not Enacted	Texas Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southwest		
Not Enacted	Utah Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	West		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Vermont Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Northeast		
Not Enacted	Virginia Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		
Enacted	Washington The Clean Buildings Performance Standard applies to buildings larger than 20,000 square feet. Establishing Policies • HB 1257 (2019) • Chapter 194-50 WAC (2020) • SB 5722 (2022) • Clean Buildings Performance Standard	West		2022
Not Enacted	West Virginia Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Wisconsin Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Midwest		
Not Enacted	Wyoming Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	West
