STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Alabama Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Alaska Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West		
Not Enacted	Arizona Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southwest		
Not Enacted	Arkansas Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	California Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	Colorado The state requires gas distribution utilities to reduce greenhouse gas (GHG) emissions 4% by 2025 and 22% by 2030, relative to 2015 levels. Establishing Policies • SB21-264 (2021)	West		2021
Not Enacted	Connecticut Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Northeast		
Not Enacted	Delaware Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Florida Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Georgia Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Hawai'i Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West		
Not Enacted	Idaho Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West		
Not Enacted	Illinois Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		
Not Enacted	Indiana Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		
Not Enacted	Iowa Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Kansas Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		
Not Enacted	Kentucky Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Louisiana Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Maine Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Northeast		
In-Progress	Maryland The Maryland Department of the Environment is required to propose a clean heat standard regulation. Establishing Policies • Executive Order 01.01.2024.19 (2024)	Southeast		2024

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
In-Progress	Massachusetts MassDEP is developing CHS regulations based on the CHS framework released in November 2023. Establishing Policies • Massachusetts Clean Heat Standard	Northeast		
Not Enacted	Michigan Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		
Not Enacted	Minnesota Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		
Not Enacted	Mississippi Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Missouri Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest

Not Enacted	Oklahoma Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southwest		
Not Enacted	Oregon Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West		
Not Enacted	Pennsylvania Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Northeast		
Not Enacted	Rhode Island Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Northeast		
Not Enacted	South Carolina Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	South Dakota Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		
Not Enacted	Tennessee Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Texas Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southwest		
Not Enacted	Utah Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
In-Progress	Vermont The Vermont Public Utility Commission submitted draft rules for a Clean Heat Standard to the Vermont General Assembly in January 2025, which now require approval by the legislature to move forward. In the report, the PUC noted that, while feasible, a clean heat standard may not be well-suited for Vermont because of its regulatory complexity, and offered possible alternatives to lawmakers, including a fuel tax on heating fuels to subsidize existing thermal efficiency programs. Establishing Policies • Act 18 (2023) • PUC Report to the legislature with proposed rules (2025) • Clean Heat Standard	Northeast		2023
Not Enacted	Virginia Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Washington Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	West Virginia Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Southeast		
Not Enacted	Wisconsin Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Midwest		
Not Enacted	Wyoming Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	West
