STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Alabama All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Not Enacted	Alaska All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		
Not Enacted	Arizona All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southwest		
Not Enacted	Arkansas All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	California Phases out natural gas burning furnaces and hot-water heaters in new buildings by 2030 Updated 2025 Building Energy Efficiency Standards promotes the use of heat pumps in residential and commercial buildings. Establishing Policies • Strategy for the State Implementation Plan (2022) • 2025 Building Energy Efficiency Standards	West		2022
Not Enacted	Colorado All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		
Not Enacted	Connecticut All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		
Not Enacted	Delaware All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Florida All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Not Enacted	Georgia All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Not Enacted	Hawai‘i All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		
Not Enacted	Idaho All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		
Not Enacted	Illinois All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Indiana All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Iowa All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Kansas All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Kentucky All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Not Enacted	Louisiana All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Maine All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		
In-Progress	Maryland The Maryland Department of the Environment is required to propose a zero-emission heating equipment standard that will phase-in zero-emissions standards for heating equipment. Establishing Policies • Executive Order 01.01.2024.19 (2024)	Southeast		2024
Not Enacted	Massachusetts All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		
Not Enacted	Michigan All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Minnesota HF 2310 included	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Mississippi All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Not Enacted	Missouri All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Montana All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		
Not Enacted	Nebraska All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Nevada All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	New Hampshire All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		
Not Enacted	New Jersey All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		
Not Enacted	New Mexico All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southwest		
Enacted	New York Requires all-electric heating and cooking in new buildings under 7 stories by 2026, and in 2029 for all new buildings Establishing Policies • A3006 (2023)	Northeast		2023
Not Enacted	North Carolina All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	North Dakota All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Ohio All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Oklahoma All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southwest		
Not Enacted	Oregon All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		
Not Enacted	Pennsylvania All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Rhode Island All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		
Not Enacted	South Carolina All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Not Enacted	South Dakota All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Tennessee All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Not Enacted	Texas All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Utah All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West		
Not Enacted	Vermont All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Northeast		
Not Enacted	Virginia All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		
Enacted	Washington The state energy code offers builders incentives in the permitting process for choosing electric heat pumps instead of natural gas furnaces. Establishing Policies • 2021 Washington State Energy Code (2024)	West		2024
Not Enacted	West Virginia All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Wisconsin All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Midwest		
Not Enacted	Wyoming All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	West
