STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Alabama Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		
Not Enacted	Alaska Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West		
Not Enacted	Arizona Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southwest		
Not Enacted	Arkansas Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	California 1,385 megawatts (MW) of storage by 2020, of which 500 MW must be distributed storage, and 15 gigawatts (GW) of storage and demand response by 2032 Establishing Policies • AB 2514 (2010) • AB 2868 (2016) • R.20-05-003 (2021)	West		2021
Not Enacted	Colorado Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West		
Enacted	Connecticut 300 megawatts (MW) of energy storage by 2024, 650 MW by 2027, and 1,000 MW by December 31, 2030 Establishing Policies • SB 952 (2021)	Northeast		2021

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
In-Progress	Delaware The Delaware Sustainable Energy Utility, in coordination with state agencies, electric utilities, and other stakeholders, must undertake a study to assess and analyze the costs and benefits of the adoption of Energy Storage Systems. The study must evaluate and report on the feasibility of constructing additional energy storage projects in Delaware and the projected amount of megawatts of energy storage that might be constructed by December 31, 2030. An initial report is due by December 31, 2025, and a final report is due by June 1, 2026. Establishing Policies • SJR 3 (2025)	Southeast		
Not Enacted	Florida Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		
Not Enacted	Georgia Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Hawai‘i Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West		
Not Enacted	Idaho Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West		
Enacted	Illinois The Illinois Climate and Equitable Jobs Act directed the Illinois Commerce Commision (ICC) to establish 2032 storage procurement targets for all utilities serving >200,000 customers by 2022. In 2022, the ICC stated setting these targets was not realistic. The ICC is required to plan for the procurement of no more than 1,500 megawatts (MW) of battery energy storage. The ICC recommends procuring 1,038 MW by 2025 and 3 gigawatts (GW) of installed storage by 2030. Establishing Policies • SB 2408 (2021) • Energy Storage Program Report (2022) • HB 587 (2025) • Energy Storage Procurement Report to the Governor, the General Assembly, and the Illinois Commerce Commission (2025)	Midwest		2021

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Indiana Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		
Not Enacted	Iowa Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		
Not Enacted	Kansas Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		
Not Enacted	Kentucky Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Louisiana Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		
Enacted	Maine 300 megawatts (MW) of energy storage by 2025 and 400 MW by December 31, 2030 Establishing Policies • LD 528 (2021)	Northeast		2021
Enacted	Maryland 750 megawatts (MW) of storage capacity by 2027, 1,500 MW by 2030, and 3,000 MW by 2033 HB 1035 requires the procurement of up 1.75 GW of battery storage Establishing Policies • HB 910 (2023) • HB 1035 (2025)	Southeast		2023
Enacted	Massachusetts 200 megawatts (MW) of storage capacity by 2020, 1,000 megawatt-hours (MWh) by 2025, and 5,000 MWh by 2030 Establishing Policies • H.4857 (2018) • S.2967 (2024)	Northeast		2024

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	Michigan 2,500 megawatts (MW) of energy storage capacity by 2030 Establishing Policies • SB 271 (2023)	Midwest		2023
Not Enacted	Minnesota Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		
Not Enacted	Mississippi Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		
Not Enacted	Missouri Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Montana Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West		
Not Enacted	Nebraska Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		
Enacted	Nevada 100 megawatts (MW) of energy storage by 2021 and 1,000 MW by 2030 Establishing Policies • Docket No. 17-07014 (2020)	West		2020
Not Enacted	New Hampshire Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Northeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	New Jersey 600 megawatts (MW) of energy storage by 2021 and 2,000 MW by 2030 Establishing Policies • A3723 (2018)	Northeast		2018
Not Enacted	New Mexico Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southwest		
Enacted	New York 1,500 megawatts (MW) of energy storage by 2025 and 6,000 MW by 2030 Establishing Policies • S6599 - Climate Leadership and Community Protection Act (2019) • CASE 18-E-0130 (2024)	Northeast		2024
Not Enacted	North Carolina Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	North Dakota Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		
Not Enacted	Ohio Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		
Not Enacted	Oklahoma Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southwest		
Enacted	Oregon At least 5 megawatt hours (MWh) of electricity from energy storage annually by 2020 from the state's two largest investor-owned utilities, up to 1% of 2014 peak load maximum Establishing Policies • HB 2193 (2015)	West		2015

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Pennsylvania Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Northeast		
Enacted	Rhode Island 90 megawatts (MW) of energy storage by 2026, 195 MW by 2028 and 600 MW by 2033 Establishing Policies • S 2499 A (2024)	Northeast		2024
Not Enacted	South Carolina Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		
Not Enacted	South Dakota Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Tennessee Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		
Not Enacted	Texas Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southwest		
Not Enacted	Utah Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West		
Not Enacted	Vermont Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Northeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	Virginia 3,100 megawatts (MW) of energy storage capacity by 2035 from the state's two investor-owned utilities (2,700 MW for Dominion and 400 MW for Appalachian Power Company). 10% of projects must be deployed behind the meter, and 35% of capacity must be owned by non-utility entities. Establishing Policies • HB 1526 (2020)	Southeast		2020
Not Enacted	Washington Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West		
Not Enacted	West Virginia Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Southeast		
Not Enacted	Wisconsin Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Wyoming Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.	West
