STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Alabama Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Enacted	Alaska The Alaska Oil and Gas Conservation Act prohibits "waste" of oil and natural gas, which is defined as the release, burning, or escape into the open air of gas, from a well producing oil or gas, unless authorized by the Alaska Oil and Gas Conservation Commission. The state allows producers to flare gas for safety reasons, during maintenance periods, and in order to test new oil and gas wells Establishing Policies • AK Stat § 31.05.170 (1971)	West		1971
Not Enacted	Arizona Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southwest		
Not Enacted	Arkansas Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	California Methane emissions must be reduced 40% below 2013 levels by 2030. State law also prohibits oil drilling within 3,200 feet of sensitive community areas, including residences, schools, health care facilities, and businesses. Establishing Policies • SB 1383 (2016) • SB 1137 (2022)	West		2016
Enacted	Colorado Methane emissions from oil and gas operations must be reduced 60% below 2005 levels by 2030. Oil and gas companies must find and fix methane leaks, and, where necessary, install technologies to limit or prevent emissions. These rules also require semiannual leak detection, tank controls, and performance standards for transmission. Frequent leak detection and repair (LDAR) is also required, and routine methane flaring during maintenance is prohibited. Natural-gas powered pneumatic controllers and pumps must be phased out by 2029. Oil and gas operators must also report their emissions under the Colorado Greenhouse Gas Reporting Rule. Establishing Policies • 2 CCR 404-1 (2020) • HB 21-1266 (2021) • Regulation Number 22 (2023) • Regulation Number 7 (2025)	West		2025

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Connecticut Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Northeast		
Not Enacted	Delaware Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Not Enacted	Florida Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Not Enacted	Georgia Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Not Enacted	Hawai‘i Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Idaho Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West		
Not Enacted	Illinois Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Indiana Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Iowa Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Kansas Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Kentucky Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Enacted	Louisiana Routine venting or flaring of natural gas is prohibited, except in instances where the Office of Conservation finds that such prohibition would result in an economic hardship on the operator of the well, lease or production facility from which the gas is proposed to be flared. Establishing Policies • LAC 43:XIX.103, 3503, 3507, 3509, and 3511 (2024)	Southeast		2024
Not Enacted	Maine Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Northeast		
Enacted	Maryland Operators must reduce vented and fugitive emissions of methane from both new and existing natural gas transmission and storage facilities. Establishing Policies • COMAR 26.11.41 (2020)	Southeast		2020

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	Massachusetts Natural gas operators must meet annual declining methane emission limits. Establishing Policies • 310 CMR 7.73 (2021)	Northeast		2021
Not Enacted	Michigan Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Minnesota Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Mississippi Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Not Enacted	Missouri Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Montana Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West		
Not Enacted	Nebraska Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Nevada Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West		
Not Enacted	New Hampshire Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Northeast		
Not Enacted	New Jersey Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Northeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	New Mexico Oil and gas operators are required to capture 98% of their waste natural gas by the end of 2026. Oil and gas operators are required to calculate emission rates, perform monthly checks for leaks and fix them within 15 days, and achieve state-determined emission reduction requirements for certain equipment and processes. Establishing Policies • 19.15.27 NMAC (2021) • 19.15.28 NMAC (2021) • 20.2.50 NMAC (2022)	Southwest		2022
Enacted	New York The venting of natural gas at wells, compressor stations, storage sites, and metering and regulating stations is limited, and in many cases prohibited. The regulations contain rigorous leak detection and repair (LDAR) requirements for oil and gas infrastructure, as well as requirements for controls and operations. Establishing Policies • 6 NYCRR Part 203, Oil and Natural Gas Sector? (2022)	Northeast		2022
Not Enacted	North Carolina Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	North Dakota Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Ohio Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Oklahoma Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southwest		
Not Enacted	Oregon Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West		
Enacted	Pennsylvania Operators must adhere to reasonably available control technology (RACT) requirements and RACT emission limitations for conventional oil and natural gas sources of volatile organic compounds (VOCs). Establishing Policies • Regulation #7-580 (2022)	Northeast		2022

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Rhode Island Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Northeast		
Not Enacted	South Carolina Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Not Enacted	South Dakota Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Tennessee Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Not Enacted	Texas Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southwest		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Utah Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West		
Not Enacted	Vermont Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Northeast		
Not Enacted	Virginia Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		
Not Enacted	Washington Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West		
Not Enacted	West Virginia Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Southeast		

STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Not Enacted	Wisconsin Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	Midwest		
Not Enacted	Wyoming Oil and gas methane regulations include phasedown commitments, reporting requirements, leak detection and repair, or other measures that reduce methane emissions from oil and gas production.	West
